

Gardening Services Guide

Plant Reconditioning

Reviving Your Plants

Taking your plants from what they are to what they should be involving cutting back, shaping, feeding, removal, relocation and soil improvement. All plants benefit from attention and professional care.

Cost per gardener of £50 per hour + vat (minimum 4 hours), £395 per day + vat

Plant Sourcing

Providing Only The Best

Giving advice on which plants will work in which location and then finding those plants, checking their health, delivering them to you and planting.

Cost per gardener of £50 per hour (minimum 4 hours), £395 per day + vat.
These costs do not include the plants.

Water Systems

Tailored For You

To provide regulated and regular watering to where it is needed and when is one of the main requirements of plant care. We provide tailored & automated watering solutions to assist your plants with hydration.

Systems are individually priced. We provide a free site survey and quote.

Garden Designs

Redesigning your existing planting arrangements

Concept drawings are produced in line with an initial brief from you together with mood boards. From the agreed concept design a more detailed drawing is produced with a planting scheme.

The cost of providing this is between £250 - £750 depending on the project.

Regular Garden Maintenance

Only The Best Care

Maintaining your plants health on a year round basis with planned and scheduled visits. We provide pruning, lawn mowing, weeding, hedge cutting, feeding, soil improvement and seasonal planting.

Maintenance is individually priced. We provide a free site survey and quote.

Green Waste & Recycling

Fully Qualified

We remove all green waste and take to a licenced recycling facility. We are licensed by the Department of the Environment to do this.

We charge £7.50 + vat per large gardening bag or we can quote for larger amounts.
